Pieces

All Saints

I can see that you wanna break
Get down and gotta walk away
Girl just do you
Hurry up now don't be late
I wish that you could stay
And spend a little time with you
But our plans have been wasted away

What are you waiting for
Go meet him at the door
Love needs you so much more
So don't keep him waiting

Kisses have blown all the way
Stroke you hair til it takes away
Pieces of you
Here for you we don't have to say
I can sit here all day
Spend a little time with you
Now our plans have been wasted away

What are you waiting for
Go meet him at the door
Love needs you so much more
So don't keep him waiting
What are you waiting for
I know you've been here before
I'll see you again for sure
So don't keep him waiting

Here's to a blue sky and pastures new
Here is to sunlight and missing you
Here's to the way to forever more
Here's to pieces of you
Girl, pieces of you

What are you waiting for
Go meet him at the door
Love needs you so much more
So don't keep him waiting
What are you waiting for
I know you've been here before
I'll see you again for sure
So don't keep him waiting
