Let's Ride

Easton Corbin

Baby can't you feel that?
Baby don't you hear that?
That's the sound of freedom calling our name
It's turning us always
All you got to do is turn the key
Let this feeling carry us away

Baby let's ride
Chase a little sunset, watch that full moon rise
Baby let's ride
Miles of road where thehe ain't no wind and sound
Let the wheels of this white truck
Kick up a little dust while you're holding on tight
Come on
Baby lets ride

Girl you know the night is young
No reason not to run
A few miles of memories down this road
Baby we don't need a map
Pick a star and we'll follow that
What are we waiting on girl let's go

Baby let's ride
Chase a little sunset, watch that full moon rise
Baby let's ride
Miles of road where thehe ain't no wind and sound
Let the wheels of this white truck
Kick up a little dust while you're holding on tight
Come on
Baby lets ride

Is how you got me feeling right now
Baby let's ride
Don't look back and never come down

Let the wheels of this white truck
Kick up a little dust while you're holing on tight
Come on
Baby let's ride
