

Vicious (Parasite)

10 Years

Nothing
Nothing
Nothing

So sure
The right thing of this world, you hold
Never stop
[Inaudible whisper]
To consider your fate

Dig
Deep and down you dig
And take advantage of your chosen host
So you can burrow down, burrow down

Never long
[More inaudible whispering]
Straight to the bone
And you are living disease
Whole and alone

Dig
Deep and down you dig
Into the soul of your chosen one
So you can burrow down, burrow down

Dig
Deeper down you fuck
And take advantage of your chosen host
So you can burrow down, burrow down

Nothing
Nothing
Nothing

Entertain this notion
But you are not worthwhile
And all your skin holds inside
Is a cold and empty place

I won't let you into my heart
I won't let you into my brain
I won't let you into me (Parasite)

Nothing
Nothing
Nothing

Entertain this notion
But you are not worthwhile
And all your skin holds inside
Is worthless pile of shit

I won't let you into my heart
I won't let you into my brain
I won't let you into me you parasite
I won't let you into my heart

I won't let you into my brain
I won't let you into me you parasite
(That was uh... That was strange...)
