Good morning Have you woken up? You've lost this game You've lost to me, who has power over everything in the whole world

A foolish future Filled with love A ridiculous love song $% \left(x\right) =\left(x\right) +\left(x\right) +\left$

Passionate with hope For love, for you, it's so trivial

anytime for the music.
anytime for the music.
dance, dance, dance, everything confusion.

[wake up!!]
Let me ask you six questions
A chained beast
Do you rebel against your fate?
I want you to release your instincts

The world becomes distorted The gray clouds carry lies Looks like I won't need an umbrella Cards are falling down in chaos

[wake up!!]

The unearthed crime of the past
And those fangs sinking into your heart
Live only with your instincts
That's the punishment for losing the game

[time up]

Receiver, midnight, confusion, chaos, black suits Sheep man, cards, party, brain, scheme, state of affairs Sleep, hypnosis, joke, umbrella, transactions, double personality

My name is six....
