

# When We Get Married

1910 Fruitgum Company

And there'll be flowers baby, for you and me  
Just wait and see, and everyone is gonna come  
And there be sunshine baby, in every room  
That afternoon when we get married

When we get married (When we get married)  
When we get married (When we get married) Yeah  
When we get married (When we get married)  
When we get married

And there'll be church bells ringing everywhere  
And this I swear it's gonna be for you and me  
And in the chapel baby you wear my ring  
And everything when we get married

I know there'll be some happy tears that day  
They'll see us standing side by side  
And when your daddy gives his little girl away  
Your mama's gonna break right down and cry
