

## See You At The Lights

1990s

Hey! It's gonna snow tonight  
I know, I will be liking it  
So let's go, let's go!  
Step out of the house  
Step into the white  
Put on that dress tonight  
The one your mom don't like

I'll see you at the lights

Hey! I saw your photograph  
Oh no. Did it make you laugh?  
I said no! Oh no!  
Street lights too bright  
Give me some now  
Give me something to do,  
with somebody like you  
we could be in the sky

I'll see you at the lights

Hey I'm deep inside of me  
No lights on my Christmas tree  
I said no! That's not a bar.  
Get out, to a bar  
get out like a blonde gets out of a car

How right you are!  
you are my guardian  
you are my boogaloo  
You wear my favourite shoes

I see the light in you  
I see the light in you
