2 Unlimited

Welcome to the power age
Money, money, money

The power age it's the new generation
We are the ones with no limitations
We had the iron and the stone
Now we got a new age that we own
But it's not about the power that makes you blind
It's all about the the power that's in your mind
This is the time to get the power
The power age, this is the hour
So let the _ take you on _
Woow...
So release all the pain that stood there before
This is the power age
So get with it, o'yeah, you belong
There's only one force that makes you strong

OH.. OH...
This is the power age

We're reaching for the final destination
To break out of the cage
Get in to the power age
With all of the brand new generation
It's time to turn the page
We living in the power age

Break out of your cage; into the power age

The age of destruction, the age of hate
And the age of violence and the ages of late
Greed and gain that's all they care
Money, money, money, with enough to share
So get with it feel the vibration
The power age it's just a sensation
You can feel it down in your soul
When you let the force take control
So by now you better know the deal
Woow...
You gotta to get high to get real
This is the power age
Free you mind to disage
Welcome to the power age
