

# Round and Round

## 3 Doors Down

There's one who takes it all  
And there's one who takes the fall  
One who never wins  
And there's one who stands again  
There's one who lives in pain  
And there's one who has no shame  
There's one to tell the lies  
And one to make the alibis

Round and round and round and round we go  
Where we're gonna stop nobody knows

There's one who makes the rules  
And there's one to play the fool  
(Always a fool)  
One with jealous hands  
And there's one to be the friend  
(Everybody needs one)  
There's one who wins the fight  
And there's one who sleeps at night  
There's one who will stand tall  
But we will all fall

Round and round and round and round we go  
Where we're gonna stop nobody knows  
Something's wrong, I feel it in my soul  
Round and round and round and round we go

Just to find a way, just to find a way out  
To find a way, just to find a way out  
To find a way, just to find a way out for me...

Just to find a way, just to find a way out  
To find a way, just to find a way out  
To find a way, just to find a way out for me...

Round and round and round and round we go  
(To find a way, just to find a way)  
Where we're gonna stop nobody knows  
(To find a way, just to find a way)  
Something's wrong, I feel it in my soul  
(To find a way, just to find a way)  
Round and round and round and round we go

Round and round and round and round we go  
Where we're gonna stop nobody knows  
Something's wrong, I feel it in my soul  
Round and round and round and round we go

Just to find a way, just to find a way out  
To find a way, just to find a way out  
To find a way, just to find a way out for me...
