

Men like me 'cause I speak my mind
And women like me 'cause I take my time
Try not to take life too serious
I might get burned
If you've got somethin' to show me
I'm willing to learn
Got enough trouble just making it day to day
And when the world starts spinnin'
'N I feel like I'm going insane
Chorus
I got a system that's guaranteed
I got a rock 'n roll strategy
It ain't no science but it works for me
It's just a rock 'n roll strategy
Get in my car
Head downtown
Turn up the radio roll the windows down
It ain't no science but it gets me around
It's just rock 'n roll strategy
Turn it up
If you walk down the middle people criticize you for
Sitting on a fence
And if you walk on the right
Or you walk on the left
They say you're much too radical to make any sense
Can't win for losin'
Might as well be yourself
And when it gets so confusin'
You fell like checkin' out
Chorus
Can't win for losin'
Might as well be yourself
And when it gets so confusin'
You feel like checkin' out
I got a system that's guaranteed
I got a rock 'n roll strategy
It ain't no science but it works for me
It's just a rock 'n roll strategy
Get in my car
Head downtown
Turn up the radio roll the windows down
It ain't no science but it gets me around
It's just rock 'n roll strategy
I got a system that's bonafide
Works for me everytime I try
It ain't no science but it gets me by
It's just a rock 'n roll strategy
Turn it up
