

Do You Ever

3LW

Every time I go to sleep at night with her, I think of you
In the morning I wake up with her, I think of you
When im making love to her, I think of you
When we shop at the mall, I think of you
I thought me and you was through but that's not true
She's my girl, I like her, I loved you, I feel pitiful
Help me out, I don't know what to do
You shine like the sun so beautiful

So you can holla like a summer day
Back in the day, when I was your world
It all came back to me yesterday
That's when I saw you with your girl
I wish I could've told you to your face
I was too late, I was a fool
And now I cant get you out my head
Thinking of her, laying with you

It took me way to long to tell you
That I shouldn't have never let you go
But its way to late to ask you
Come back cause you're all I know
You got a girl and its cool
But it's the way you need to be
Before I hang up the fone
Do you ever think about me

Do you ever think about me?
The way I think about you
Do you ever stop to wonder
If im still digging you
Don't you wish that you could fall through
And get it like you used to
Do you ever think about me?
The way I think of you

Call you on the phone
So we can talk, tell me whats up
Tell me whats really goin on
Tell me the truth, Do you get enough
Tell me does it feel as good as mine
I knew what you need, when you wanted more
I just wanna be what's on your mind
Under your skin, Like I was before

It took me way to long to tell you
That I shouldn't have never let you go
But its way to late to ask you
Come back cause you're all I know
You got a girl and its cool
But it's the way you need to be
Before I hang up the phone
Do you ever think about me

Do you ever think about me?
The way I think about you
Do you ever stop to wonder

If im still digging you
Don't you wish that you could fall through
And get it like you used to
Do you ever think about me?
The way I think of you

Baby you're the only one for me
Without you here it's hard for me to breathe
When I think about you baby I get weak
And I wanna know
Do you get that way when you think of me

You could say what you wanna say
Feel how you wanna feel
But our love never slipped like banana peel
You made me happy like when I first gotta deal
But still I kept memories hid
Think about you more than I did
Even though I gotta girl
I can't forget the past
That's all that we have
I sit back and laugh
How you and me used to be tight in the throwback
Kept it clean like a bath
Money kept spinnin fast
Like Jim Carrey when he pulling the mask
Through the math
Got more than half, Even a piece of the stash
You had it bad, But I cant let it burn
Cause im still concerned
Trust me, It's a lesson to be learned
At times I got wild still kept it mild
I think about you like you think of Bristol

Do you ever think about me?
The way I think of you
Do you ever stop to wonder
If I'm still digging you
Don't you wish that you could fall through
And be just like you used to
Do you ever think about me?
The way I think of you
