

Electroshock

3OH!3

Sweat, sweat, cos I'm a poisonous pill,
Pop me in your mouth baby, sit and be still,
Not yet, I ain't through wit' you girl,
Put me in your glass baby, give me a swirl.

I said sweat, sweat, cos I'm a poisonous pill,
Pop me in your mouth baby, sit and be still,
Not yet, I ain't through wit' you girl,
Put me in your glass baby, give me a swirl.

Don't stop don't let it (oh),
Freeze up your trembling lips,
Don't you regret it (oh),
Cos you can bet that this won't even ever happen again.

So hold me close tiny dancer,
The only thing I've got's this electrorock cancer,
I saw a picture on the canvas,
Baby's got a ciggy in her lip and knows she's cancerous.

Yes, yes; in your tight white dress.
You're all alone and I'm about to microphone check.
Oh yeah, prep the area here,
Shock, shock, electrorock and steady now; clear.

Yes, yes; in my tight white vest.
You're all alone and I'm about to microphone check.
Oh yeah, prep the area here,
Shock, shock, electrorock and steady now clear.

I said sweat, sweat, cos I'm a poisonous pill,
Pop me in your mouth baby, sit and be still,
Not yet, I ain't through wit' you girl,
Put me in your glass baby, give me a swirl.

I am a static hat full of magic tricks,
You are kinetic, slow down baby,
Why you leavin' so quick?

So hold me close tiny dancer,
The only thing I've got's this electrorock answer,
I saw a picture on the canvas,
Baby's got a ciggy in her lip and knows she's cancerous.

Yes, yes; in your tight white dress.
You're all alone and I'm about to microphone check.
Oh yeah, prep the area here,
Shock, shock, electrorock and steady now clear.

Yes, yes; in my tight white vest.
You're all alone and I'm about to microphone check.
Oh yeah prep the area here,
Shock, shock, electrorock and steady now clear.

Steady now, steady, steady now
Steady now, steady, steady now
Steady now, Steady, Steady now

Steady now, Steady, Steady now clear
