Tonight is gonna be pretty ugly Tonight we're gonna push on through You cranks better back up off me And find something else to do I can't deny the reason why I'm not afraid to die [CHORUS] Blazin' in the dark We're racing all alone Tearing down these walls Of hatred On our own This one is for my brothers and sisters That kick the pedal to the floor You better take your cover, mister Cuz when it rains it pours [CHORUS] We are the diamonds in the dirt Misunderstood and quite unheard We leave your leadership behind We'd rather drown than walk in line
