

Hope you got what you wanted  
I'm lying  
And it all goes as planned  
I'm trying it all  
Hope it's tearing you up now  
I'm lying  
And it falls in your favour  
I'm doing so well

Oh, you're gonna get in the way  
I hope that that don't consume  
Oh, you're gonna get in the way  
I hope that that don't

And it's real and it's fine  
I'm lying  
But it's bought and it's paid for  
I am doing so well

Oh, you're gonna get in the way  
I hope that that don't consume  
Oh, you're gonna get in the way  
I hope that that don't go down  
You get down when I'm away

Down, you get down when I'm away

Hope you got what you wanted  
I'm lying  
And it falls in the way now  
I am doing so well

Oh, you're gonna get in the way  
I hope that that don't consume  
Oh, you're gonna get in the way  
I hope that that don't go down  
You get down when I'm away

Down, you get down when I'm away
