

# Shadow

## 7eventh Time Down

All the times the dark nights  
When I didn't wanna follow you into the light  
But those days are long gone  
You have broken me and molded me  
I've found the life

Even when all hope is gone  
I will not stop I'll carry on  
I've finally found the life  
I will stand up and fight

I don't need you to tell me  
The next step we take towards the enemy  
I'll follow you, blindly  
Where you go I'll go I'll be your shadow

Storm the front lines with you  
Got my orders when you move I move.

Under fire from all sides  
Seeing friends lose faith and fall behind  
But I know where I stand  
Face forward arms ready I'm not looking back

Even when all hope is gone  
I will not stop I'll carry on  
I won't back down this time  
I will stand up and fight
