

What About Tonight

7eventh Time Down

No more wars and no more fights
No more picture perfect lies, this is our time
Tomorrow's dreams are fading
No more games, no more waiting
We are the ones, this is our time
Don't wait on one more day

What if we love? What about tonight?
Don't throw away a moment of your life
What about tonight?

We are the ones
Who'll turn this world upside down
We won't stop, we won't slow down
We are the ones, this is our time
Don't wait on one more day

What if we love? What about tonight?
Don't throw away a moment of your life
What if we love? What about tonight?
Don't let a moment pass you by
What if we love? What about tonight?
This is our time

What if we realize tomorrow isn't right?
Can't take it anymore
What are we fighting for now?
What are we fighting for now?

What if we love? What about tonight?
Don't throw away a moment of your life
What if we love? What about tonight?
Don't let a moment pass you by
What if we love? What about tonight?

What if we love? What about tonight?

Tonight
