

## Come & Get It

98 Degrees

Baby, baby I've been watchin  
you watchin me  
Secretly sending,  
tender kisses casually  
Across a crowded room,  
your man doesn't even notice you  
(you're so bold) Mmm,  
I guess that's how it goes

Lady, lady it seems like  
he bores you to death  
You need to escape,  
you need to enjoy yourself  
Ignore his wondering eyes,  
he doesn't realize  
You're gonna make your move

Come and get it,  
the lovin' you want is in me  
Come and get it,  
I will love you faithfully  
Come and get it, girl don't be shy  
I swear you won't regret it...  
baby come and get it

Tell me, tell me, if you'd  
like to pursue external pleasure,  
hand delivered from me to you  
Fulfill your fantasies, with 98 Degrees  
(Baby this is Motown Mmm,  
that's how it's going down)

Show me, show me  
everything that you'll sacrifice  
To come and get it, me,  
I'm willing to spend my life  
To keep you comin',  
forever and always alright  
Starting with tonight

Tonight's your night,  
there's no need to worry (baby)  
Come and get this love,  
there's no need to hurry...  
Come and get this love
