

Take the Long Way Home

98 Degrees

Girl I don't want you to go
I wish you could stay all night
Don't worry about it, lets keep driving

We been hanging out all night
Everything been so nice
I wish I didn't have to go
Oh, you look so sexy, touching you so gently
But I got to get you home

So many things to tell ya
So long since I've held ya
Oh girl you just don't know
So here's my proposition, don't speak only listen before we go down this road
Take you the long way home
I'm not trying to leave you now, ain't no rush so can we slow it down
Take you the long way home
I know that we're pulling up
Lets circle round the block so we can touch some more

Kiss me while we ride, touch me while we ride, just take you the long way home
Kiss me while we ride, touch me while we ride, just take you the long way home

Wish I could stay all night, but I just can't tonight
Cause I've got to be up at 6
Girl you made my heart melt when you took off my seatbelt and told me to come give you a kiss

So many things to tell ya
So long since I've held ya
Oh girl you just don't know
So here's my proposition, don't speak only listen before we go down this road
Take you the long way home
I'm not trying to leave you know, ain't no rush so can we slow it down
Take you the long way home
I know that we're pulling up
Lets circle round the block so we can touch so more

Kiss me while we ride, touch me while we ride, just take you the long way home
Kiss me while we ride, touch me while we ride, just take you the long way home

Something about you makes me wanna drive all night, all night, all night long
I can't wait until the next time I see you

Take you the long way home
I'm not trying to leave you know, ain't no rush so can we slow it down
Take you the long way home
I know we're pulling up
Lets circle round the block so we can touch so more

Kiss me while we ride, touch me while we ride, just take you the long way home

Kiss my while we ride, touch me while we ride, just take you the long way home
me, take you the long way home

Ain't no rush lets be together, take you the long way home

Ain't no rush so can slow it down

Kiss me while we ride, touch me while we ride, just take you the long way home

Kiss me while we ride, touch me while we ride, just take you the long way home
me

Just take you the long way home

Oh baby, oh baby, just don't want to stop baby

Just take you the long way home

You know I'll see you again
