Don't change me I'm gonna break if you try

Don't change you You know the tears I'm gonna cry

And I sure will
Miss us when we're gone

You're the real meaning of the sun It shows you off to everyone You're the real meaning of the sun It shows you off to everyone The real meaning I want the real meaning

Don't fix me
It breaks my heart
To see you try

Don't fix you And leave me for Some other guy

And I sure will Miss us when we're done

You're the real meaning of the sun It shows you off to everyone You're the real meaning of the sun It shows you off to everyone

When I'm thinking about you fondly Then I'm thinking about the only Real meaning of the sun

You're the real meaning of the sun
It shows you off to everyone
You're the real meaning of the stars
They guide me to the places you are
The real meaning
I want the real meaning
