I gotta be strong

Stop
And take those big blue eyes
Back out of my heart
It don't belong to you

But maybe it could
It sure has crossed my mind

I gotta be true this time

But as we kiss goodbye I don't even know why I ain't movin' Ain't walkin' away

See on the surface you're this perfect angel inside There's nothing you can't hide

[Chorus]

Oh, oh, sugar ain't as sweet as you Oh, oh, monkey see as monkey do And I could get addicted Sure as every movie is Oh, oh, yeah

Hot

Like baby mid-July Your ninety degrees No shade when you walk by

I'm falling for you
And that is falling bad
I gotta do right
So I don't lose what I have

And when you smile at me
Baby I just can't wait to be leavin'
Be miles away

See on the surface youre' this perfect angel inside There's nothing you can't hide

[Chorus]

Hey! Sugar ain't as sweet as you

On the surface you're this perfect angel inside There's nothing you cant hide

[Chorus]

Oh, oh, sugar ain't as sweet as you Oh, oh, honey bees get jealous too We're perfectly connected Sure as we both need this here Oh, oh, yeah
