

Summertime

Aaron Carter

Grab your stuff and lets all go outside
Bang your head to this tune in your ride
Leaving all you cares right behind
For the summertime
Everybody's hyped to feel the vibe
Drinks are in the cooler chilled on ice
Lay back and unwind 'cause
Nothing else matters
For the summertime

I've been working real hard
For just one reason
I've been waiting all year
For just one season
The season that reminds me of palm trees
The smell, the ocean breeze
And the sense of being free
Barbecues and pool parties
What I call fun

Hanging with the honey's
And enjoying the sun
Spendin' 4 hours just to clean the Benz
So you can cruise down the
boulevard with your friends

Sights on the beach have got your mind blowing
Drinks on the chill
The money is flowing
Right here is where you belong
So if your down with me
Get up and come along

So grab your stuff and lets all go outside
Bang your head to this tune in your ride
Leaving all your cares right behind
For the summertime
Everybody's hyped to feel the vibe
Drinks are in the cooler chilled on ice
Lay back and unwind 'cause
Nothing else matters
For the summertime

Had to take a sip of Ma's Homemade
Freshly squeezed lemonade
Check out the honeys in my brand new shades
As they lay on the sand
Topping up on the tans
Take in the scenery
The mood is fine
Nobody's wearing their watches
Nobody's checking the time
There is only one thing that's on everybody's mine
That's the summer the summer
the summertime

Sights on the beach have got

your mind blowing
Drinks on the chill
The money is flowing
Right here is where you belong
So if your down with me
Get up and come along

So grab your stuff and lets all go outside
Bang your head to this tune in your ride
Leaving all your cares right behind
For the summertime
Everybody's hyped to feel the vibe
Drinks are in the cooler chilled on ice
Lay back and unwind 'cause
Nothing else matters
for the summertime

Right now we're going to bring it to you one time
Bang your head to this tune in your ride,
Leaving all you cares right behind
Everybody is feeling the vibe
of the summer, of the summer

Grab your bags and lets go back inside
Bang your head to this tune in your ride
But didn't we have a good time?

Destinations home, that's where we're going
the drinks are gone and the cash stopped flowing
say goodnight to all of your friends
'cause when tomorrow comes
we're going to do it all again

So grab your stuff and lets all go outside
Bang your head to this tune in your ride
Leaving all your cares right behind
for the summertime
Everybody's hyped to feel the vibe
drinks are in the cooler chilled on ice
Lay back and unwind 'cause
nothing else matters
for the summertime

So grab your stuff and lets all go outside
Bang your head to this tune in your ride
Leaving all your cares right behind
for the summertime
Everybody's hyped to feel the vibe
drinks are in the cooler chilled on ice
Lay back and unwind 'cause
nothing else matters
FOR THE SUMMERTIME!
