

# Run Wild Horses

Aaron Watson

Somewhere on a nowhere road I hear you whisper this  
Slow that Mustang down, come on and steal my kiss  
Girl I've got you in my arms, coming all undone  
No fences in your heart run wild horses

Run free as the wind my passion on your skin  
Your lips on mine run wild horses  
Run out of control deep down in your soul  
We become one, run wild horses run

Out there on that sunset strip those stars come out at night  
But they don't shine like you, you've got your own spot light  
Girl I want to take you home, wanna get you all alone  
Unleash this love of mine run wild horses

Run free as the wind my passion on your skin  
Your lips on mine run wild horses  
Run out of control deep down in your soul  
We become one, run wild horses run  
Run wild horses run

So let's break these chains and go down like the setting sun  
No love don't need these reigns no we can't be bound can't tie  
us down run wild horses

Run free as the wind my passion on your skin  
Your lips on mine run wild horses  
Run out of control deep down in your soul  
We become one, run wild horses run

Run free as the wind my passion on your skin  
Your lips on mine run wild horses  
Run out of control deep down in your soul  
We become one, run wild horses run  
Run wild horses run  
Run wild horses run
