

## Paradise

### Abandon All Ships

Close your eyes  
We're suspended in time  
Open up the sky and let me rise, you are mine  
Give me a sign  
Make the stars align  
Let them shine

There's a paradise for me and you  
My paradise is built for two  
It's hard to find where does it hide  
All along it was by my side  
Cause paradise is everywhere  
Take my hand it's yours to hold  
Take my heart it's made of gold

Where do I start?  
Are you sent from above  
Set fire to my heart  
I want to burn in your love  
Let me feel the winter turn to spring  
Lift my body up I want to feel your love again

Close your eyes  
Were suspended in time  
Open up the sky and let me rise, you are mine  
Give me a sign  
Make the star align  
Let them shine

The wind won't guide you  
To your distinction  
You'll never follow through  
Sin is your only salvation

There's a paradise for me and you  
My paradise is built for two  
Its hard to find where does it hide  
All along it was by my side  
Cause paradise is everywhere  
Take my hand it's yours to hold  
Take my heart it's made of gold
