

## Here Well Stay

ABBA

Love, love is a dream  
We were like two young strands of driftwood  
Caught up in a stream  
We were destined for each other  
From our very first hello  
We came bustin' through that river dam  
And made that river flow  
We will sail upon the ocean  
'Til the shoreline meets the sky  
Carried on the first trade wind  
That favours you and I  
We have both of us between us  
Known misfortune in our days  
But, darling this time we're on our way

Cause we're here  
And here we'll stay  
We won't ever throw this love of ours away  
We are here  
And here we'll stay  
We won't ever throw this love of ours away

Life, oh life is a chance  
We were the only two who spun the wheel  
And never scored romance  
And if we'd stayed to play for fortune  
We'd have broke the banks of gold  
We'd have taken old Las Vegas  
For every cent that she could hold  
Love like ours was made in heaven  
It was blessed by Lord above  
We will spend our lives together  
Forever hand in glove  
We have both of us between us  
Known misfortune in our days  
But darling this time we're on our way

Cause we're here...
