

# Give'em What For

Abney Park

(Sounds of machinery and echoey voice)

Your not done for, you better stand up and give em what for

Look, if you don't give up, your not done for

You better stand up and give em what for

If you don't give up, your not done for

You better stand up and give em what for

All this time will hold you down

Its mud in your eye and a permanent frown

Well its the way it is

The life you lead

The pain you feel, well here's to the greed

Bring a bucket and knife, its time to go

Fight for your life, welcome to the show

Its the way it is, its the life you lead

Its the pain you feel, well here's to the greed

Don't give up, your not done for

You better stand up and give em what for

If you don't give up, your not done for

You better stand up and give em what for

All this time will hold you down

Its mud in your eye and a permanent frown

Well its the way it is

The life you lead

The pain you feel, well here's to the greed

Bring a bucket and knife, its time to go

Fight for your life, welcome to the show

Its the way it is, its the life you lead

Its the pain you feel, well here's to the greed

You better get up

Your done for
