Vampire

Will return I'm a creature of the night I am a vampire And I bite At night I will come to your house

Lay me into my grave And close my casket To save yourself

I will bite into your neck To suck your blood Out of your vein Soon you will be dead

Lay me into my grave And close my casket To save yourself

Stick a pale into my heart Then you have saved of your life just a part Hear my evil symphony

Lay me into my grave And close my casket To save yourself

Absurd
