

Always Have, Always Will

Ace Of Base

Always have, always will
I was mesmerised when I first met you
I wouldn't let myself believe
That you could step out of my wildest dreams
But you didn't know the secret part of me
Until we kissed and made it open up so easily

I always have
Even when I didn't show
I always will
You know that I just wanna touch you
Whenever you're close to me

I always have
Doesn't matter where we go
I always will
You know that I just wanna show you
Just how much you mean to me
Always have, always will

Everything that you give in to
Everything you'll ever need
Is locked up somewhere deep inside of me
You gotta know
But more importantly
You've got to stay and hold me while I live this fantasy

I always have
Even when I didn't show
I always will
You know that I just wanna touch you
Whenever you're close to me

I always have
Doesn't matter where we go
I always will
You know that I just wanna show you
Just how much you mean to me

Sometimes we try too hard to please
We should let love come naturally
And sometimes I don't know
Just what you really do to me
Oh, that's o.k.
'Cause it's part of the mystery

I always have
Even when I didn't show
I always will
You know that I just wanna touch you
Whenever you're close to me

I always have
Doesn't matter where we go
I always will
You know that I just wanna show you
Just how much you mean to me

Always have, always will
