

# Getsu Senshi

Adagio

Watch the rising moon climbing far over the hills  
May the light shine forever  
Is there a sign to follow?  
Avoid sorrow, carry me

Give me strength to carry on  
Give me strength to carry on  
Lit the candle to the night  
I will walk within the dark  
With the fire in my heart  
Reaching the power of the truth

Come with me  
Come with me and see  
Come with me  
Rising high in the sky

Come with me  
Come with me and see  
Say my name and you will see  
My world inside

Time is still passing by  
While the emptiness stands  
I can no longer hide  
My lonely feelings inside  
Driving me mad  
I'll follow

Give me strength to carry on  
Give me strength to carry on  
Lit the candle to the night  
I will walk within the dark  
With the fire in my heart  
Reaching the power of the truth

Come with me  
Come with me and see  
Come with me  
Rising high in the sky

Come with me  
Come with me and see  
Say my name and you will see  
My world inside
