## Undead

Midnight has passed, those streets are cold, Emptiness I can hear voices in my back Silent footsteps

Need to feed Rotten corps and flesh Devouring Wormy earth keeps moving in stone

At, the next corner an old man appear Is it me, is it him, is it fear? I'm a lamb in the middle of wolves There's no further life round here

Crawling and lurking everywhere I'm not alone Rough smell of death perfumes the air I am eaten

Dig the tomb In the heart like flesh Burn the grave Skin's exploding on stone

At, the next corner an old man appear Is it me, is it him, is it fear? I'm a lamb in the middle of wolves There's no further life round here
