

Lockout

Adam Green

Last night
I've got caught in a lockout
And it block outs everything that is true
Mom calls, do you actually greet her?
She's fine, telling me some good news

You... can't... be... the best...
Just... remember... nothing... lasts...

Let's meet at the texaco station
Bring me a pack of (?)
All your sons and daughters gonna be there
Seem's like (?) twice

You... can't... be... the best...
Just... remember... nothing... lasts...

Oooh...

When i took my message to the people
They said we should be just friends
Then I started acting obnoxious
Then I started singing again, started singing again
