

# Drowning

Adema

Die!

I gave in to  
The stress in life  
I can't escape  
The pressure seems to get me down

It's like a needle in my spine  
It stings inside  
Poisons me with time  
I can't deal with your lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't get  
(Your lies)

People have said (They have said)  
I'm not okay (I'm not okay)  
I lost my mind, numb me 'til I won't feel pain again

It's like a needle in my spine  
It stings inside  
Poisons me with time  
I won't deal with your lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't get  
(Your lies)

Life is gone  
I have no one  
Life is good  
I am no one

Life is gone  
I have no one  
Life is scarred  
I am no one

Life is gone  
I have a lie

Something, something inside of my mind  
Let it all go and tie me to your fight  
Nothing is real inside, just the lies  
Something keeps building you high with lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?

I don't bend  
(The lies)

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't bend
