```
Die!
```

I gave in to The stress in life I can't escape The pressure seems to get me down It's like a needle in my spine It stings inside Poisons me with time I can't deal with your lies I wish I could watch you drown and die And take my time (Lies) It's always been a problem, can't you see? I don't get (Your lies) People have said (They have said) I'm not okay (I'm not okay) I lost my mind, numb me 'til I won't feel pain again It's like a needle in my spine It stings inside Poisons me with time I won't deal with your lies I wish I could watch you drown and die And take my time (Lies) It's always been a problem, can't you see? I don't get (Your lies) Life is gone I have no one Life is good I am no one Life is gone I have no one Life is scarred I am no one Life is gone I have a lie Something, something inside of my mind Let it all go and tie me to your fight Nothing is real inside, just the lies Something keeps building you high with lies

I wish I could watch you drown and die

It's always been a problem, can't you see?

And take my time

(Lies)

I don't bend
(The lies)

I wish I could watch you drown and die
And take my time
(Lies)
It's always been a problem, can't you see?
I don't bend
