

# Monsanto Hayride

## Adolescents

Magic kingdom, right at Main  
Shattered link, food chain  
Tomorrowland in a plastic can  
Monsanto: your house of the future

In a working class Alabama town  
Childhood leukemia found  
Mercury poisons the stream  
Monsanto  
Amber waves of greed  
Poison the well  
In greed we trust  
Against the grain

Minnesota genocide  
Birth defects, pesticide  
Roundup spray, village green  
Monsanto

Big business muscles flex  
Blind eyed FDA inspects  
Par for the course no one suspects  
Monsanto: your house of the future

You'll seed your fields  
How we tell you to  
You'll feed your cows  
What we sell to you  
Inject growth hormone  
Into the seed you sow  
You'll eat and feed and seed  
But never know  
How far the tentacles reach  
From the greed that feeds inside  
How far the invasion sweeps  
Monsanto  
Grab your girl and climb aboard  
Monsanto hayride  
Plant the seed, breed the greed

Plant the seed Monsanto brings

Magic kingdom, right at Main  
Shattered link, food chain  
Tomorrowland in a plastic can  
Monsanto

Close your eyes, ignore the lies  
Bastard's creed no one denies  
Systemic failure demands supply  
Monsanto: your house of the future

You'll seal your fate  
How we want you to  
You'll feed your children  
Our Frankenfood  
The future's now

Reap what we sow  
Mutate the future  
And we'll watch you grow
