

Better Than the Movies

Adore Delano

Fading out at black and white
I see technicolor lights
Our names written in the sky
Everything is ours tonight
Gonna leave it all to faith
Show it off like Phoebe Cates
Live it up and blame our age
Young enough to make mistakes

Better than the movies
Better than the movies
Better than the movies
When we give it all we've got
It's better than the movies
Better than the movies
Better than the movies
Better than the movies
When we give it all we've got
It's better than the movies

Every moment is a dream
Everytime we make a scene
Life is like a silver screen
We were born to take the lead
Never gonna let it go
Gonna give them all a show
Walk into the after glow
Stop and let the credits roll

Better than the movies
Better than the movies
Better than the movies
When we give it all we've got
It's better than the movies
Better than the movies
Better than the movies
Better than the movies
When we give it all we've got
It's better than the movies

Better than the movies (So much better than the movies)
Better than the movies (So much better than the movies)
Better than the movies
When we give it all we've got
It's better than the movies

Better than the movies (Better better)
Better than the movies (So much better better)
Better than the movies
When we give it all we've got
It's better than the movies
