

Time Waits

Adrian Belew

Time wasted, wasted worrying
Hurrying down the same street
Time beats with every moment
Eroding from under my feet
Time waits, it waits for no one
And here I sit, I'm standing still
Time waits
I'd like to go on but I'm out of time
My own doubt eats a hole
From the inside out through my plans
Work it out, I need to now
But I don't know how to begin
Time waits, it waits for no one
And here I sit, I'm standing still
Time waits
I'd like to go on but I'm out of time
And if I could make it stop
Or if I could have what I've lost
In time
