## **Ageless Void**

## **Aeternus**

Puissance in the abstract A band can't reach obstances Mundane, such invisible pillars The human horror obsolete

Abstract life and all therein Implode the matter senseable The will without meaning Ageless the void of old

The ultimate throne of none-existence The rabid dog of pandemonium The king of martyrs and man The condition we name nothingness

Absorbing the stars
The leper planets fall
Before us, after us
Aeternus - in aeternum
