

## Step Into The Light

Afghan Whigs

Whenever the light shines  
And the stillness is shaken  
And the drug of your smile has gone  
And left me alone

I need it bad, I need it now  
Won't you come and give me some?  
I need it sweet, baby please  
Won't you answer the phone?

Step into the light, baby  
Just give me the word and I will begin  
Step into the light, baby  
And see the trouble I'm in

The light has gone  
My love has gone  
The good times have gone  
Away

I have to ask, I need to know  
Was it ever love?  
I need it sweet, baby please  
Won't you come and give me some

Step into the light, baby  
Just give me the word and I will begin  
Step into the light, baby  
And see the trouble I'm in, I'm in
