

## Guilty as Charged

Agent Steel

Genesis now we're to stay  
Our evolution stunted Earth betrayed  
Trapped inside this mortal cage  
Repelling masses now your soul's in rage  
You're all Guilty as charged...  
Guilty as charged  
Eyes of fire stare into space  
Carcass showing shadows grey  
Living in the final age  
You're falling in, in the hands of fate  
You're all Guilty as charged...  
Guilty as charged  
In the beginning the universe fell  
Emanating the formula DNA the fraction 2/3rds  
The number 23  
Now we have one Adam and Eve before the jury of the Council  
And she's been given her final verdict  
Guilty as charged  
Now you've become one of them  
Nobody cares at all they'll never win  
Lakes of fire forged in hate  
Prepared for, for the skeptics race  
You're all Guilty as charged...  
Guilty as charged
