

# Liberty Lying Bleeding

Agent Steel

Vanish into the ether  
My mind reaching for a reason  
In this life are we tools that are used to teach  
Meaning or treason?

Assaulted daily we breathe in the fuel  
Of dissension - breeding tension  
Tattered souls hang from threads  
We are damned we are dead  
If you're not yet I'm sure you'll keep trying

Insidious the machine weaves its webs  
Of destruction - gaining power  
Spiders stalk on the laws spun of lies  
Paralyzed flies are then devoured

The stabbing fangs of the bureaucrats  
Soften the pain of the feeding  
Cocooned vanquished and unaware  
Liberty lying bleeding

Watch her bleed  
Leave her lie - let her die  
It's your life you compromise

Watch her bleed  
Leave her lie - let her die

When it's done and we are safely chained  
Our freedom behind us the memory remains  
Sour truth tastes like sugared rain  
In this world where the liars have everything to gain  
We're all to blame should this come to be  
We watched while they raped our liberty  
We watched while they raped our liberty

Watch her bleed  
Leave her lie - let her die

It's your life you compromise  
When it's done and we are safely chained  
Our freedom behind us the memory remains  
Sour truth tastes like sugared rain  
In this world where the liars have everything to gain  
We watched while they raped our liberty  
We watched while they raped our liberty
