

# Shut Me Out

Aidan Hawken

If I could start all over with you again,  
I'd change the way the story ends.  
I'd try my best to help you along,  
If ever there's anything wrong,  
But I know you gotta be moving on.

Baby it's gonna be fine if you have to go  
And I always wish you well you know,  
It's time for you to do everything,  
you always wanted to do.  
So, I'll see you when you make it through

I couldn't do anything right;  
I couldn't do anything right,  
I was so far away and you shut me outside.  
Shut me outside,  
Shut me outside.

God I wish I was sleeping with you tonight,  
We could listen to the rain outside,  
I'd tell you a story, sing you a song, promise you nothing is w  
rong,  
But I know you gotta be moving on.

I couldn't do anything right;  
I couldn't do anything right,  
I was so far away and you shut me outside.

It's time for you to do everything,  
you always wanted to do.  
So, I'll see you when you make it through  
Yeah, I'll see you when you make it through
