See You In Hell

Aiden

So now the lights flash white
And all you see is anger,
Get up
But should I quit it when you can taint
To make everything feel perfect in your own head

But now after all
Can you just forget?
But now after all
Whatd you got to show for it?

To darkness,
To suffer,
When I fall
I will see you in hell
To darkness
To suffer,
When I fall,
I will see you in hell

Well theres no second chance
To run away that anger,
Take it
What I found covered in this broken glass
Its soaked in ash
Would you catch me a bundle with it?

But now after all
Can you just forget?
But now after all
Whatd you got to show for it?

To darkness,
To suffer,
When I fall
I will see you in hell
To darkness
To suffer,
When I fall,
I will see you in hell

When you're broken,
You're beat down
See you in hell now, see you in hell now
When you're broken,
You're beat down
See you in hell now, see you in hell now
When you're broken,
You're beat down
See you in hell now, see you in hell now

So here's my last goodbye
This nightmare ends your sleep
Now get up
I set my friends on fire
I know I've lost control
I see you've lost your smile

Is this our tainted tainted soul

But now after all
Can you just forget?
But now after all
Whatd you got to show for it?

To darkness,
To suffer,
When I fall
I will see you in hell
To darkness
To suffer,
When I fall,
I will see you in hell

You won't be there when I fall
[My friend, see you in hell]

To darkness,
To suffer,
When I fall
I will see you in hell
To darkness
To suffer,
When I fall,
I will see you in hell!
