

Me Like You

Air Supply

Me like you,
Me like you,
Me like you,
Me like you.

It's a sign of the times, is it more than we can handle?
Watch our life going by as were searching through the channels.

We all live in a different world
But were all just the same.
What becomes of the one without the other?
Can't you see there's an empty space?
Written on another nameless face.
We all end in the same place together.

Me like you,
Me like you,
Me like you,
Me like you.

It's a sign of the times,
Is it more than we can handle?
Watch our life going by
As were searching through the scandal.

Far away from the talking crowd
There's a whisper passing by
Telling me that I need to be by your side.
If I said I could live with you,
Would you say that you love me too?
Anything that you want to do I'll try, I'll try.

Me like you,
Me like you,
Me like you,
Me like you.
