All Of My Love

Al Jarreau

No one's ever held me like you hold me No one's ever touched me in this way But I'm not runnin' anymore never felt this way before

All of my love I will give to you all of my dreams will be comin' true In the heat of a tangled kiss
Say you will and I promise you this
All of my love I will give to you
All that I ask is you love me too take a look, I'm never far behind turn around and gimme gimme a sign

I will put my feelings into one place center my emotions on your face I could spend a lifetime sharin' night time 'Cause when you're lyin close to me somethin' tells me that you need

So, be my lover, be my friend say this love will never end want no other in my life our forever starts tonight All of my love
Oh yes
