

# Black And Blues

Al Jarreau

I need somebody  
I need somebody  
I need somebody

I need somebody  
I need somebody

Please don't leave me alone  
I'm tired of being by myself  
No, don't you leave me on this shelf

Please don't leave me alone  
Help me find my dancin' shoes  
Oh help me heal these black and blues

I live just down the way  
You wont have to stay  
Just small talk and Jasmine tea  
Spend some time with me  
Here just watchin' the rain  
Take a moment and give me sweet  
Lovin' company

You say you know what I mean  
Tired of keepin' house for one  
No, solo dancin' ain't no fun  
If you know what I mean  
Cant you come and help me through  
Oh I would do the same for you

I live just down the way  
We wont have to stay  
Sweet dreams in town tonight  
Lets go feel the light  
Leave those blues in the rain  
Take a moment and give me  
Some sweet lovin' company

Listen to me don't you see what  
I mean  
Come on baby, lets do the booty green  
This is the way to forget those bad dreams

Oh, don't you feel more like yourself  
So good to be down off the shelf  
We finally found our dancin shoes  
Guess we beat these black and blues

I need somebody  
I need somebody  
I need somebody

Guess we beat those black and blues
