

Your Sweet Love

Al Jarreau

And when I thought
my flame was out
You entered in

I look around
I feel the same as before
I'm on the ground
I'm dreaming away, but you know
I would trade all of
my daydreams for
some wings
A sparrow sings

The thrill was gone
But like the summer
The spring
Will bring the dawn
And I'll be singing your song
For a wondrous new change is
Taking me up to heaven

Your sweet love -
brighter than light -
Streaking like a starship -
Your sweet love -
brightens the night -
Gleaming down on our ship
Your sweet love -
making me realize
That heaven is right
here in your eyes

I look around
It's not the same as before
I'm on the ground
But now I'm singing your song
For this wondrous new change
Is taking me up to heaven

And when I thought
my flame was out
You entered in

I thank the stars
But you know as often
I thank the things you are
And all I offer
Just longs for that wondrous
new change
That's taking me up to heaven

I found my lucky star
Was gleaming nightly
Your love in starlight
Screaming 'round the bend
