Sad Lookin' Moon

I thought that you could fly I thought that you had wings I guess that I believed You'd never say goodbye But my world stopped turnin' 'round The stars turned upside down It knocked me to the ground on my knees

Now there's a sad lookin' moon Shinin' down on me There's a sad lookin' sky As far as I can see I always believed And I thought the stars could see But there's a sad lookin' moon Shinin' down on me

I shared with you my dreams I gave you everything I opened up my heart And I gave you my ring Well I spent days and nights Just thinkin' about the time When you would be mine all my life

Now there's a sad lookin' moon Shinin' down on me There's a sad lookin' sky As far as I can see I always believed And I thought the stars could see But there's a sad lookin' moon Shinin' down on me

There's a sad lookin' moon A sad lookin' moon There's a sad lookin' moon Shinin' down on me Alabama
