

Some People Fall, Some People Fly

Alecia Elliott

It was a long hard road
It was all uphill
We nearly lost our way
We nearly lost our will

So we clung to the rocks
Oh where the cold winds blow
'Till love gives us strength to finally let go
We climbed that mountain

And we got so high
Then on the wings of an angel
We took to the sky
Out here on the edge

Love dared us to try
Baby, some people fall, some people fly
Many they fall
For passions kiss

And many they say
Is this all there is?
Well it never was easy
To rise above

To look into the eyes of love
We climbed that mountain
And we got so high
Then on the wings of an angel

We took to the sky
Out here on the edge
Love dared us to try
Baby, some people fall, some people fly

And baby love has no fear
Leap and a net will appear
We climbed that mountain
And we got so high

Then on the wings of an angel
We took to the sky
Out here on the edge
Love dared us to try

Baby, some people fall, some people fly
Some people fly
Some people fly
