

# Count On You

Alesha Dixon

Oh, why?  
You're the one, I wanna say it  
Oh, why?  
This feeling's gone much deeper down  
Now you got me where you want, I'm hypnotized  
You got me where you want and know it  
Take you there and keep it real  
In your arms, the place that I belong

Can I count on you, baby?  
You're always gonna break me heart  
Can I count on you, darling?  
You're always gonna break my heart

Can I, can I count on  
Can I, can I count on  
Can I, can I count on you?  
Can I, can I count on you?

Oh, why?  
You're the one, I wanna say it  
Oh, why?  
This feeling's gone much deeper down  
Now you got me where you want, I'm hypnotized  
You got me where you want and know it  
Take you there and keep it real  
In your arms, the place that I belong

Can I count on you, baby?  
You're always gonna break me heart  
Can I count on you, darling?  
You're always gonna break my heart

Can I, can I count on  
Can I, can I count on  
Can I, can I count on you?  
Can I, can I count on you?

Right up, [?] this  
Something about the way you kiss  
[?] off my lips  
I think [?] like this  
No more, no [?]  
Every [?]  
But I [?]  
(Can I, can I?)

Can I count on you, baby?  
You're always gonna break me heart  
Can I count on you, darling?  
You're always gonna break my heart

Can I, can I count on  
Can I, can I count on  
Can I, can I count on you?  
Can I, can I count on you?
