

# Do You Know the Way It Feels

Alesha Dixon

Have  
You felt the pain  
Of a love so deep you think  
Your heart might break  
Has someone touched your soul  
So deep inside  
Did you feel your whole world stop  
The moment that  
You looked into their eyes  
Oh do you know what  
It's like

Do you know the way it feels  
When you love someone so bad  
You can't think of nothing else  
But the touch of their hand  
And you wonder what the way but no you know you can't  
Do you know the way it feels

Have you had those nights  
When you can't sleep  
'cause a picture of their face  
Is all you see  
You know you need that love  
Like you need air  
And you find it hard to breathe  
Sometimes when you  
Just let you see them there  
Oh you konw it's just  
Not fair

Do you know the way it feels  
When you love someone so bad  
You can't think of nothing else  
But the touch of their hand  
And you wonder what the way but no you know you can't  
Do you know the way it feels

Do you  
Have a clue  
What I'm  
Going through  
Do you know  
What it's like when feel like your just about to lose your mind, baby

Do you know the way it feels  
When you love someone so bad  
You can't think of nothing else  
But the touch of their hand  
And you wonder what the way but no you know you can't  
Do you know the way it feels  
When you love someone so bad  
You can't think of nothing else  
But the touch of your hand  
And you wonder what the way but no I know I can't  
Do you know the way it feels  
Way if feels
