

# All For You

Alex & Sierra

Here I go  
Another night of fun by myself losing all control  
You won't believe it I've thinking I wanna rob a bank  
Get you everything you could ever need  
Steal a plane, Fly away wherever you want

You'll never know when to stop  
It's the way you keep me twisted  
It's just how I like it to be  
You never know in the skies  
So if you wake up and see me on the news  
I did it all for you  
I did it all for you

There you go  
You love to cause trouble  
I don't think it all just how it goe  
I've been to doing the same  
Steal your favorite car, driving every mile till we pop the charge  
No jail bars are ever keeping us apart

You'll never know when to stop  
It's the way you keep me twisted  
It's just how I like it to be  
You never know in the skies  
So if you wake up and see me on the news  
I did it all for you  
I did it all for you

They're coming to get us  
So we better run  
Or we're gonna pay for the things that we've done  
Coming to get us  
So we better run

They're coming to get us  
So we better run  
Or we're gonna pay for the things that we've done  
Coming to get us  
So we better run

I did it all for you  
I did it all for you  
I did it all for you  
I did it all for you  
For you, for you, for you

I did it all for you  
I did it all for you
