

The Pledge

Alexz Johnson

It's just a little thing in my pocket
I got a little bit out of control
A little fling, I'm afraid to stop it
The only reason I like the world

A bit too much, not enough of it
I take a bit, wanna take a bite
Come tomorrow I'll be over it
I'll be over it until tonight

I want more (She wants more, she wants more)
I want more

I'm getting restless, head's a mess, miss
I can't sit still, still I shake
Come on believers get me out of this
I do believe that I'm losing faith

I want more (She wants more, she wants more)
I want more

So doctor, doctor help me
My hands are shaking slightly
I swear to get this outta me
I swear (You're never gonna get it out)

So doctor numb my system
Until I'm in remission
I pledge to never miss him
I pledge (You're never gonna get it)

I got a shiver, heart's a sliver
Cheap talking, cheaper wines
I'm on the left now, believing weathermen
I'm being left here to survive

So what, another day, another regret
I pay it off, though I'm still in debt
Another hassle, cover the tassels
I've covered everything to get him back

I want more (She wants more, she wants more)
I want more

So doctor, doctor help me
My hands are shaking slightly
I swear to get this outta me
I swear (You're never gonna get it out)

So doctor numb my system
Until I'm in remission
I pledge to never miss him
I pledge (You're never gonna get it)

I pledge allegiance to the world
I won't succumb to any bull
Or any lies I've ever heard

I'm gonna be the strongest girl
And not allow myself to ever not
Allow myself alone
Oh no no, you haven't heard
Oh no, I'm not gonna give in
No, I'm never gonna give in
No, I'm never gonna give in
No, I'm never gonna give in
No, I'm never gonna give in

(No, you're never gonna get it)
(No, you're never gonna get it)
(No, you're never gonna get it)
(No, you're never gonna get it)
(No, you're never gonna get it)

So doctor, doctor help me (No, you're never gonna get it)
My hands are shaking slightly (No, you're never gonna get it)
I swear to get this outta me (No, you're never gonna get it)
I swear (No, you're never gonna get it out)

So doctor numb my system (No, you're never gonna get it)
Until I'm in remission (No, you're never gonna get it)
I pledge to never miss him (No, you're never gonna get it)
I pledge (No, you're never gonna get it)
